

Why Buyers Choose Mesh Works

Source Smarter. Collaborate Faster.
Deliver Better.

Objective

Global procurement is evolving. Mesh Works helps buyers streamline sourcing, RFQs, and supplier relationships through an AI-driven, cloud-based platform that delivers trust, speed, and measurable savings.

Platform Capabilities

- Verified suppliers
- Reverse auctions
- End-to-end visibility
- Cloud deployment
- Global scale
- AI-assisted sourcing

KPI Targets

3,500+ audited suppliers across our network covering 25 processes and 170+ commodities

Increase supplier responses by 3x through streamlined RFQs and improved supplier engagement

Drive measurable savings in quarter one via reverse auctions

Boost visibility across sourcing, quality, and supplier conformance for better traceability and risk reduction

Reduce sourcing cycle time by ~40% for scoped RFQs

How Mesh Works Solves It

Verified Supplier Database

Work with quality-assured, traceable manufacturers - searchable by capability, certification, and location.

Reverse Auctions

Run transparent, competitive bidding events that drive immediate cost savings and faster award decisions.

End-to-End Visibility

Track RFQs, supplier performance, and quality milestones in a single connected dashboard.

Cloud Platform & AI

Deploy quickly, scale globally, and reduce manual overhead with AI-assisted matching and insights.
