

LIGHTING

Bombay Metrics provides the lighting industry with several premium manufactured parts, including castings, forgings, extrusions, machining, stampings, and more. Our customer-centric approach means creating win-win solutions to help you pursue outsourcing strategies that are cost-effective and reliable. Our parts are used in several lighting applications including highway, architectural, infrastructure, chemical applications, explosive environments, warehouse lighting, office buildings, and more.

- ▶ Provide best-in-class engineering and manufacturing solutions
- ▶ Provide cost-effective solutions, shorter lead times and many other value-added services
- ▶ Provide high-quality castings, extrusions, machining, forgings and some stampings for a variety of commercial and consumer lighting products
- ▶ Manage the entire supply chain process
